

# FAQ License Content

---

## Question

On how many PCs can the program be installed?

## Answer

The license includes one installation in the office with max. 5 (versions BASIC and PRO) resp. 20 (versions LAB and OMS) concurrent clients. In addition to this network license, the license includes a separate standalone license for a notebook or a computer in the home office.

All additional licenses would be subject to an additional charge.

See also Topic [Installation](#).
