

Available License Types

License Type Trial

After installation, OnyxCeph³™ runs in a trial mode until the software is authorized by registration. In the trial mode, all functionality available in version 3D Pro can be used and evaluated except printing and findings exchange. The limitation is in the number of patients (max. 10) and images/findings (max. 100) including the pre-installed demo data. No data can be deleted in the trial mode and a nasty nag window will appear more or less frequently.

Note: The trial mode allows to test features of the software by test cases but may not be used for diagnostics or treatment planning for real cases or any other commercial purpose. Without registration, OnyxCeph³™ has no CE approval as a medical product.

License Type OSL

Program version	BASIC	2D PRO	3D PRO	LAB	OMS
Availability					

Open Subscription License - Time-limited subscription with periodical license fee payment (Standard: 12 month)
