

# Main Window Tab |Forms|

Main tab |Forms| allows recording and managing of image-related information in the form of individual questionnaires. The layout of the forms has to be generated by means of external DHML editors by the user himself <sup>1)</sup>.

Main tab |Forms| was removed since release 3.2.169 due to potential cybersecurity treats which could result from browser script

## User Interface

The screenshot shows the 'Modellanalyse' form within the OnyxCeph 3D Lab interface. The form is divided into several sections for dental analysis:

- DENTALSTADIUM**: A dropdown menu.
- Oberkiefer** and **Unterkiefer**: Sections for upper and lower jaw analysis.
  - Apikale Basis**: Dropdowns for 'groß' and 'ausreichend'.
  - Kieferbreite**: Dropdowns for 'zu breit' and 'zu breit'.
  - Stellungsfehler einzelner Zähne**: Text input for 'jede Menge' and 'dto'.
  - Zahnwanderung**: Dropdowns for 'keine' and 'keine'.
- OKKLUSALBEFUND SAGITTAL**: Sagittal occlusion findings.
  - 1. Molar**: Dropdowns for '2.00 Pb distal' and '1.75 Pb distal'.
  - Eckzahn**: Dropdowns for '2.00 Pb distal' and '1.25 Pb distal'.
  - Front (Overjet)**: Dropdown for '+9'.
- OKKLUSALBEFUND VERTIKAL**: Vertical occlusion findings.
  - Lateral**: Dropdowns for 'normal' and '0'.
  - Front (Overbite)**: Dropdowns for 'normal' and 'normal'.

The bottom status bar shows 'Workstation: User [RKB]' and 'Server: ONYXDB3-[DAVID-LG]@DAVID-LG'.

## DHTML Templates

Even since OnyxCeph™ primarily being an imaging application, an effective workflow may also require recording, managing and displaying of specific not image-based patient data within the program. For these purposes DHTML forms generated by external editors can be imported and applied in the |Forms| index card. The form drafts can be stored in the categories

- Medical History
- Functional Diagnostics
- Clinical Documentation
- Others

Active form templates can be selected and called by the icon button [New] of the Forms dialog via Category and Form layout name.

The selected form is displayed, completed and saved under selectable name by the [Save Data] button within the browser window. Already saved (completed) forms can be displayed and edited by the icon button [Open]. In addition the saved forms appear in the document tree on the [Patient] tab and, similar to all other entries, can be directly called there.

DHTML forms are displayed in the workspace of the [Forms] tab by means of an internet-browser window. The IE functionality used is adjusted to the version installed on your computer. Via context menu browser-specific calls are available.
