

System Options - Tab |Interfaces| - Digital Xray

Various manufacturers of image acquisition and image management systems (primarily X-ray device manufacturers) offer device-specific interfaces exclusively or in addition to [VDDS](#), which must be configured individually in each case. A description of these can be found in the following table.

Interface	System / Software
CliniView	CliniView
DBSwin	DBSwin
VistaSCan	VistaSCan
Romexis	Romexis
EasyDent	EasyDent
Carestream	Carestream
Scanora	Scanora
Orthometric	Orthometric/3DentStudio
VisiQuick	VisiQuick
Vatech	Vatech
VixWin	VixWin
VixWin Scan	VixWin Scan
Sidexis	Sidexis3, Sidexis4
Orex	Orex
Dimaxis	Dimaxis
Digora	Digora

Note:

Updates or modifications of such interfaces are not communicated by all manufacturers, so that the function cannot be guaranteed for the version present at the user.
