Virus Scans

All Onyx programs of each new release are registered at the whitelists of all major virus scanner software manufacturers:

- Kaspersky
- Symantec/Norton
- Avast
- F-SECURE
- McAfee
- AVG

Nevertheless, a certain time gap between releasing an OnyxCeph³™ update and publishing the related whitelist by the manufacturere can not be completely avoided. Also, the whitelist will only take effect if the user is running the latest version of the virus scanner program on the client computer.
